Covers for Linear Drainage

BRISTA covers for linear drainage - in all variations, always with the highest quality and precision:

- mesh grating (hot-dip galvanized or V2A)
- web grating (sendzimir galvanized or V2A)
- expanded metal (hot-dip galvanized)

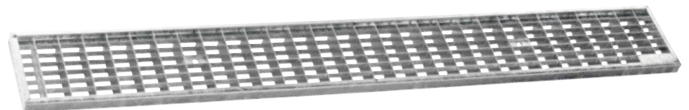

All versions:

- manufactured in 1000 mm or 500 mm length
- can be produced as a captive or resting rust

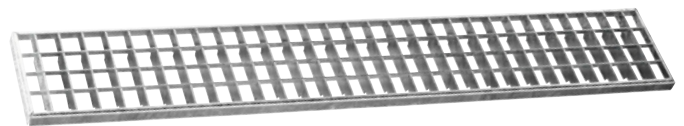

class	test forces	applications
A 15	(15 kN / 1,5 t)	pedestrians, cyclists, green spaces
B 125	(125 kN / 12,5 t)	parking lots, parking garages, delivery trucks
C 250	(250 kN / 25 t)	curbs, shoulder, public parking
D 400	(400 kN / 40 t)	lanes (also pedestrian lanes), pedestrian precincts, public parking
E 600	(600 kN / 60 t)	industry, military, high wheel loads
F 900	(900 kN / 90 t)	aircraft movement areas, ports

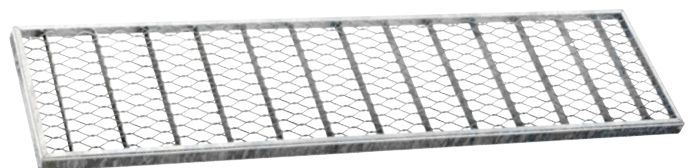

Web channel grate | DIN Kl. A

Mesh channel grate / MW 30-10 | DIN Kl. A-E

Mesh channel grate / MW 30-30 | DIN Kl. A-E

Expanded metal channel grate | DIN Kl. A-B
