BRISTA Sifter: Sift first, push after

If you prefer to sift first and push after, the sifter will be an excellent tool when composting. This model also demonstrates through highest stability, thanks to hot-dip galvanized expanded metal wire mesh, angular frame and inclined diamond, excellent sifting properties.

Part #	Description	Length (mm)	Width (mm)	Surface
001121	Screen	1000	600	hot-dip galvanized
001122	Screen	1200	800	hot-dip galvanized
