Steel Basement Windows (single and double wing)

BRISTA steel basement windows are available as single or double winged version. All steel basement windows are delivered hot-dip galvanized. The glass wings are equipped with single pane safety glass and supported by brass bands.

Another advantage: The glass and mesh wings of BRISTA steel basement windows are removable prior to installation and can be mounted to the left as well as to the right. - For even more flexibility and easy handling.

At an additional charge we also offer you custom sizes.

Please state the slinging configuration with your order. You can choose between two types:

1. Internal Stop = IA

(normal version) with protruding frame end as an anchor.

Width + 30 mm

Height - 15 mm

2. Installation inbetween the reveals = ZL

4 loose anchors included

Width - 10 mm

Height - 15 mm

Metal Products

Part #	Description	Length (mm)	Width (mm)	Type	Surface
